TECHNICAL INFORMATION

PARTTEAM & OEMKIOSKS®

MUSEUM

Industrialize your Dreams !

Made in Portugal

Multimedia Kiosks and Digital Billboards are developed and produced in Portugal.

The sucess of our company in the internacional market shows us that we have developed and produce excellent products and we should therefore be proud and confident in the future.

Patented Product / Design

MINIMALIST
AND ELEGANT

MUSEUM was developed for the presentation of multimedia information and to serve as an interactive system for users to search for information.

This kiosk is a support that allows the entities / companies, an interactive contact with their target audience, through images, videos, surveys, among others.

MUSEUM

SMALL AND EFFECTIVE

PARTTEAM & OEMKIOSKS®

VERSATILE
AND ORGANIZED

This is an excellent model used to serve as an interactive information point in museums, libraries, galleries, shopping malls, among others.

The versatility of this model is also one of its assets, since it is easily added components such as printer, keyboards, among others.

The dimensions and specifications are given in graphical representation and may not correspond to the reality of the equipment. The dimensions show are approximate and represent the equipment for a certain size display. The final dimension may vary depending display model and other components used. The client must request technical drawing for final validation (measures and specifications).

DETAILS THAT **MAKE A DIFFERENCE**

To ensure maximum quality and accuracy of our equipment, all components and products are subject to quality testing conducted in our facilities by our technical team before delivery to the customer. We pride ourselves on producing equipment in which most of the finishing is done by hand, an unprecedented precision.

MUSEUM offers a multitude of additional options that aim to improve services and processes in various sectors. This model keeps all interactivity functionalities in one information point.

The dimensions and specifications are for graphical representation and may not correspond to the reality of the equipment. The dimensions show are approximate and represent the equipment for a certain size display. The final dimension may vary according to the display model and other components used. The client must request technical drawings for final validation (measures and specifications).

MUSEUM

SMALL AND EFFECTIVE

PARTTEAM & OEMKIOSKS®

HIGH **DEFINITION**

MUSEUM stands out for its rigorous selection of multimedia materials and equipment. Perfect finishes where nothing was left to chance.
