Handy

Design for handicapped people

Technical Specifications
Handy Kiosk

Dimensions: H1200 x W500 x P90,150
Weight: aprox. 38 Kg.

The Handy model was developed for indoor use as stand up kiosk and specially designed for handycapped. people.

This model is manufactured in stainless steel AISI304 or painted steel (RAL Colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of all structure.

The area where the computer is installed and possible peripherals (card readers, coin acceptors, etc.), is protected with access through a security lock and includes three power plugs.

On side of display are two integrated speakers that fits smoothly in the all structure.

The Handy is normally equipped with a 17" XGA touch display (19'', 22'' or other sizes are possible).

This Kiosk allows integrating a large number of peripheral devices (card readers, tickets printer, coin acceptors, etc.) without having to redisgn large pieces which gives this model great versatility and increases the applications field.

The Handy can be equipped with a Atom CPU with a 160 GB hard drive, 1 Gb Ram Memory, a 128Mb graphic card and a 10/100 mb ethernet and Windows 7 Starter.
