

NETDEKO

Touch...the sky!

OEMKIOSKS 

Made in Europe

Multimedia Kiosks and Digital Mupis are developed and produced in Portugal.

The success of our company in the international market shows us that we have developed and produce excellent products and we should therefore be proud and confident in the future.

MODERN AND VERY FUNCTIONAL KIOSK

The NETDEKO model was developed for indoors use to work as stand up kiosk.

This model can be manufactured in stainless steel or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of the all structure.

This NETDEKO model is normally equipped with a tactile monitor and can be delivered with a anti vandalism keyboard with trackball, card reader, webcam, coin acceptor, tickets printer, handset phone and other peripherals. This model can be equipped with a anti vandalic monitor.

The area where the computer is installed and possible peripherals (card readers, coin acceptors, etc.), is protected with access through a security lock and includes three power plugs.

The NETDEKO model is normally equipped with a 17" XGA touch display (19", 22" or other sizes are possible).

On the side of the monitor are two speakers and the kiosk has 2 independent systems of ventilation, one for the monitor and other for the PC.

NETDEKO can be equipped with computers with diferent "performances" (CPU) with hard drives from 100 to 320 GB, 4 Gb Ram Memory, 128mb graphics card expandable to 512, 10/100 mb ethernet, and Windows 7 or 8. This kiosk can also be equipped with computers with other OS like Linux, etc..

▮ The dimensions and specifications are given in graphical representation and may not correspond to the reality of the equipment. The dimensions shown are approximate and represent the equipment for ascertain size display. The final dimension may vary depending display model and other components used. The client must request technical drawing for final validation (measures and specifications).

Self Service Kiosks

Stainless steel AISI304/316 or
painted steel (RAL Colors)

SELF-SERVICE IN INSTITUTIONS PUBLIC / PRIVATE, GYMS, HOTELS, TRANSPORT, SHOWS, ETC.

This model is the evidence of the ability that Oemkiosks has to transform any kiosk, keeping all the beauty and aesthetic component.

Apart from the information capacity which is widely used, this model can also become a selfservice kiosk where it can include ticket printers ,card readers, barcode scanners, webcams etc...to meet the needs of each client.

Interactive Technology

Touch the sky

NETDEKO was developed to allow integration of any type of touchscreen technology, thus creating an interactive device for indoor or outdoor.

OEMKIOSKS unique experience in the field of interactive technologies, Allows Them to be integrated in NETDEKO effectively and professionally.

In outdoor kiosks, Procap technology may be integrated into NETDEKO, thus Allowing the touch to be Performed on glass surface, giving NETDEKO extreme security against vandalism.

Precision
