Soul Touch

Elegant and sober

Technical Specifications Soul Touch Kiosk

Dimensions: H1400 x W300 x D200
Weight: aprox. 30 Kg.

The Soul Touch model is designed for indoor use only and to be integrated into an IPAD/Tablet. Could be used as an Information Point of the institution / company where it is installed, Internet access point or for any application that can be developed for the IPAD/Tablet PC.

It can also be used for public or private institutions to attend the clients where, somehow, a management service / waiting queues is needed, by simply installing a printer for tickets.

Through a glossy widescreen Multi-Touch you can quickly see the information you are looking for.

The glass is scratch proof so, even when exposed to a massive use, will not damage the multi-touch screen.

This model can be manufactured in stainless steel AISI 304 or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2mm.

The Soul Touch can be equipped with IPAD/Tablet PC of any available brand in the market (Samsung, Asus, Toshiba, etc.).

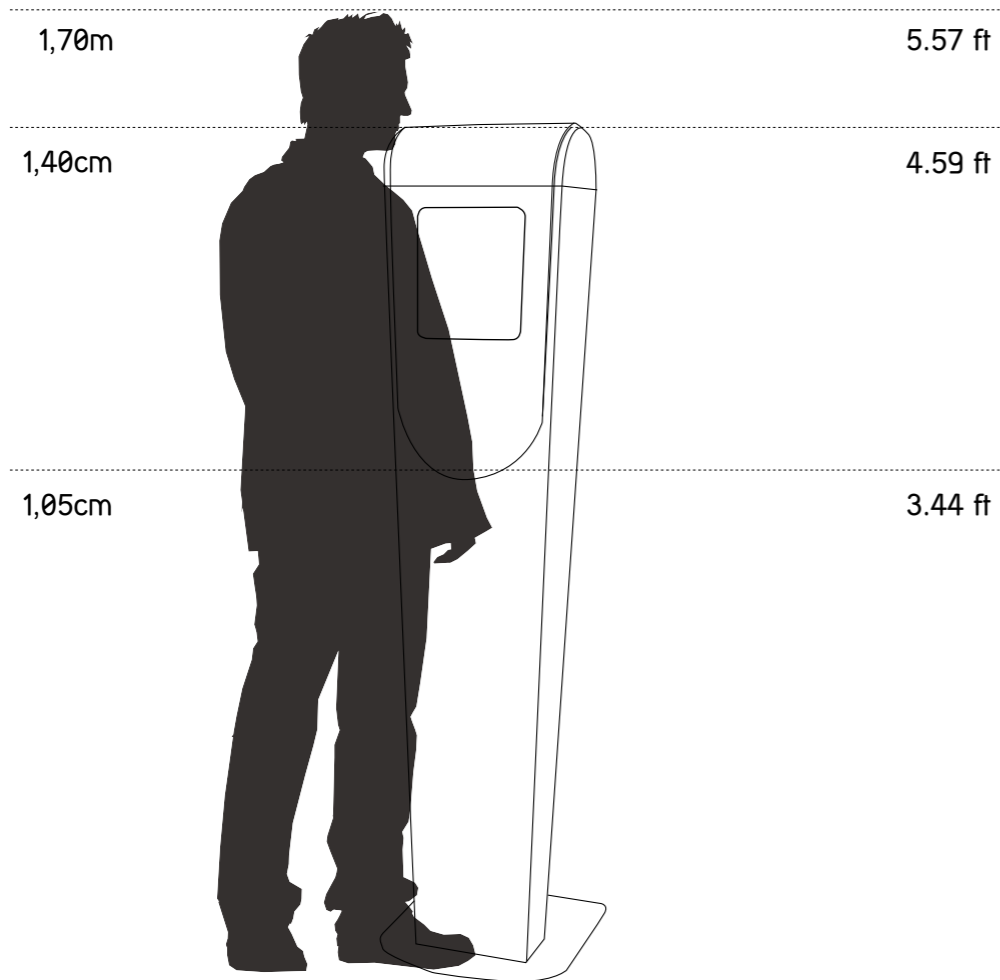

IPAD is a trademark of Apple Inc., registered in the U.S. and other countries
